

# THE ASHFORD

*The Ashford is a brilliantly designed home at 188m<sup>2</sup>. This home features three bedrooms plus a study. The main bedroom is separate from the other bedrooms and has an ensuite.*

*The open living areas off the kitchen gives the Ashford the style and feeling of space as if you're living in a larger home. The rear patio gives the home a nice touch. But most of all the front facade makes the Ashford a million dollars*
