

CRAATHIE MANOR

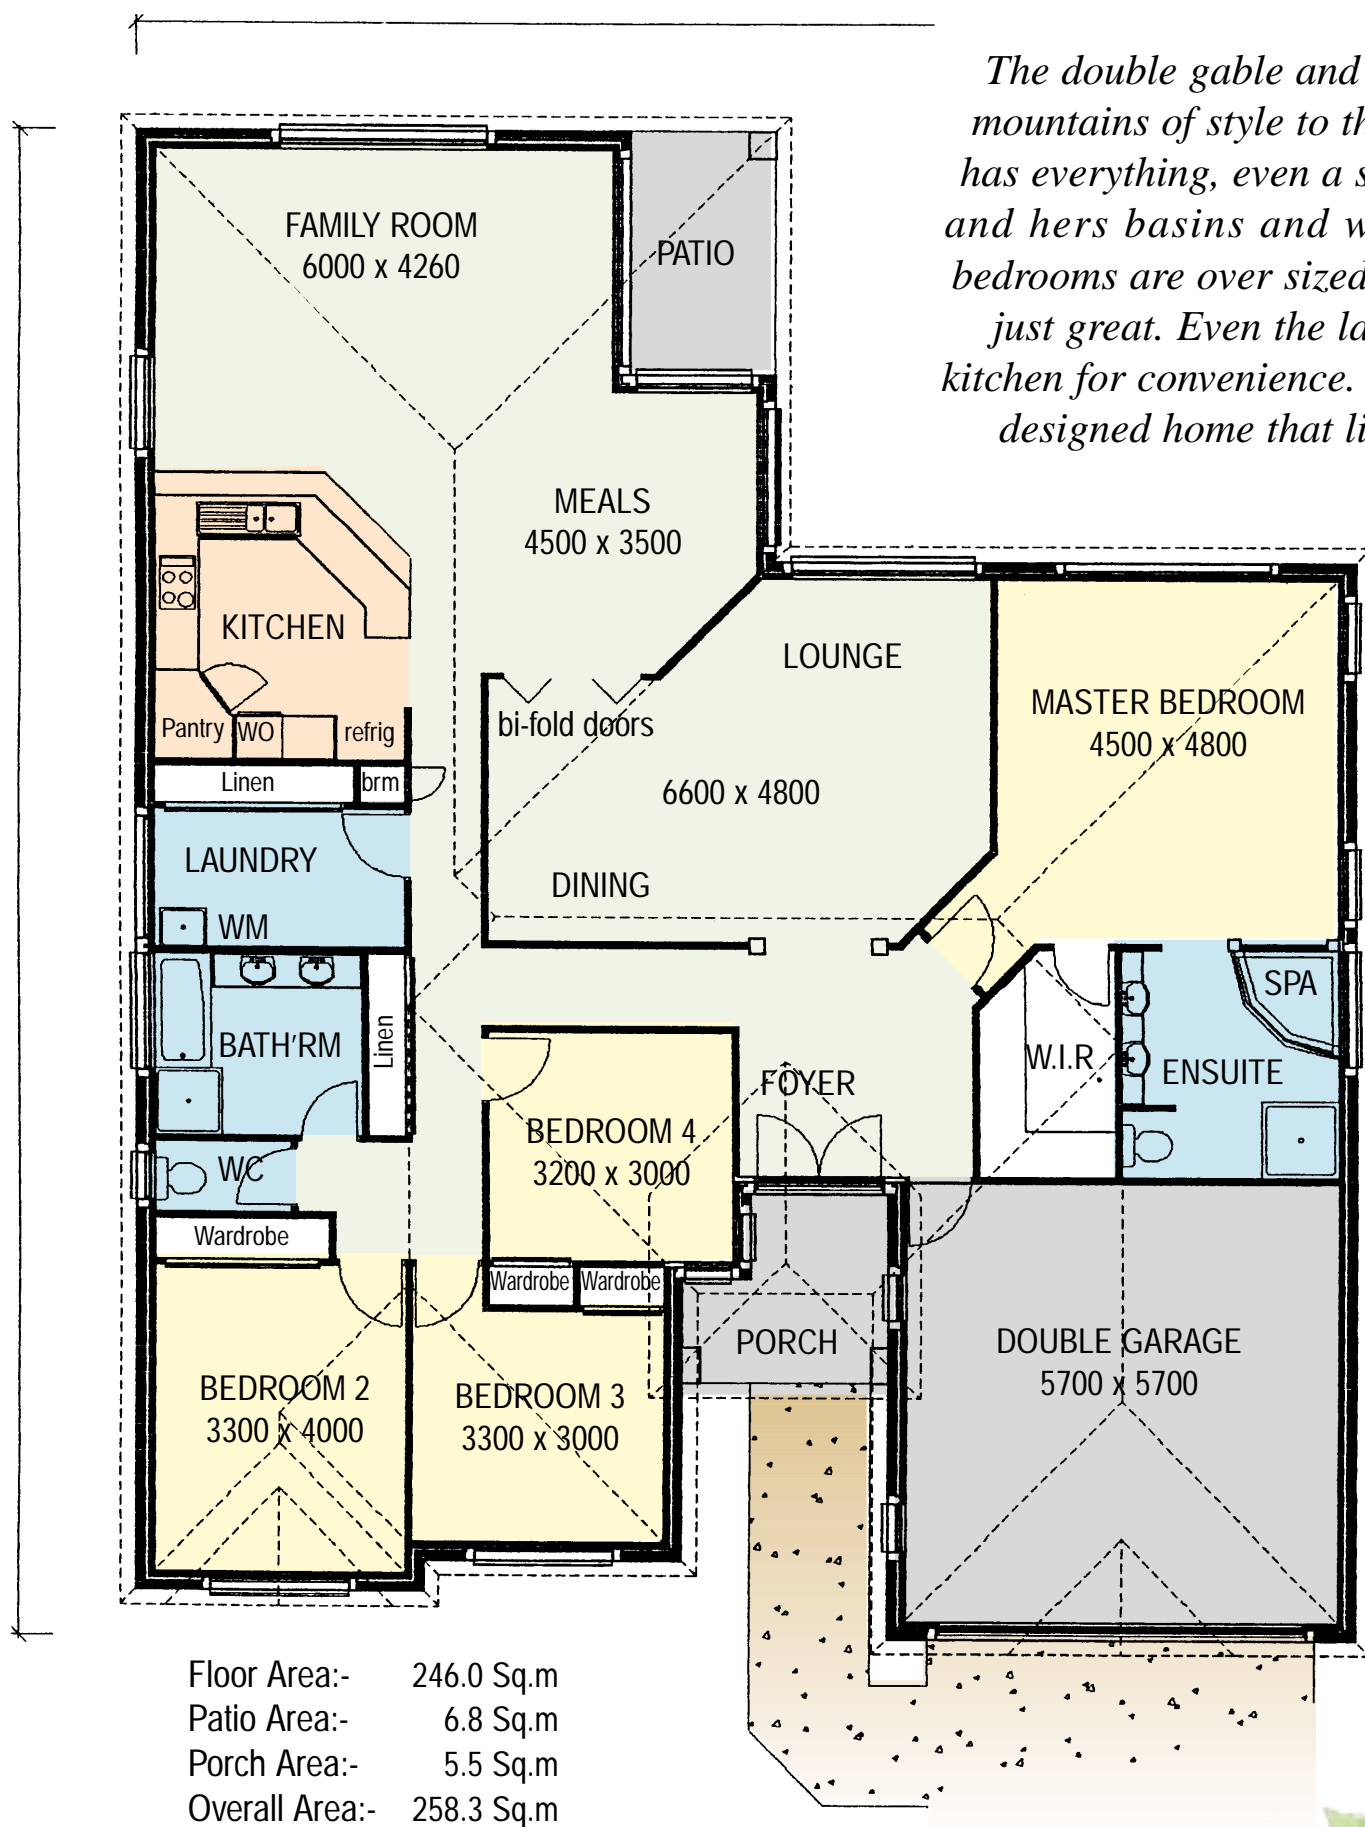

Cathrie manor, the first brilliant thing I see in the Cathrie Manor is the master bedroom and all the other entertaining areas leading out to the back yard, inviting for outside activities.

The double gable and portico entry, gives mountains of style to the Manor. This home has everything, even a spa in the ensuite, his and hers basins and walkin robe. All four bedrooms are over sized. The living areas are just great. Even the laundry is beside the kitchen for convenience. This is just a superbly designed home that lives up to its name.
